

THE PERFECT TEAM

Purpose: improves strategy and tactics including precise shot execution

Equipment: none

Some opponent's stones are taken to the far end. Coach determines a scenario: end, score, last rock. Team determines a plan/strategy for this one end in terms of what is to be achieved, what is acceptable and what is to be avoided.

Team attempts to meet the goals set. Team pick and throws 8 shots as in a normal game. Coach pretends to be the perfect opponent using the opposition colour stones and "makes" good shots by simply placing/replacing rocks as desired.

Meet "to be achieved" goal : 10 points

Meet "acceptable" goal : 5 points

Meet "to be avoided" goal : 2 points
